

Assignment 8: Workflow Language

Software Engineering for Scientists

Objectives: Become familiar with the snakemake workflow language.

This assignment will build off of the work done in Assignment 6, so use the same repository.

Tasks:

1. Move the workflow you used to a snakemake file.
2. Use variables and wildcards to expand the scope of your analysis from Assignment 6.
3. Update your analysis to include these additional plots.
4. Create a release from master tagged as 2.0
