Assignment 7: Code Review
Software Engineering for Scientists

Objectives: Become familiar with the inclusive code review process.

This assignment will build off of the work done in Assignment 6, so use the same repository.

Tasks:
1. Write a code review request and send that request to the person you are paired with (see the pairings below) **by Friday Oct 15th at 5pm**.
   a. Give the scope of the code and any priorities or assumptions.
   b. Give target review requests that include links to code in your repository.
2. Using the code review template in the course notes, review the code based on the code review request you received.
   a. Refer to the code review presentation for making your review helpful and inclusive.
3. Submit PDFs of the request you wrote and the review you wrote to Canvas by the deadline.

Pairings:

Column one sends their review request to column two.
